First Group Feedback - Financial (Mikhaela Anderson + Jake Thompson):

• Looks Great. Maybe for stats in the homepage, make the numbers pretty or have it stand out somehow. Write colors on the napkins drawings so viewers can almost visualize what it should be.

Second Group Feedback - Insurance (Sharif Rakhimov, Ahad Hussain, Parth Patel, Marjea Mckoy, Luis Rivera)

• Don't know what else to say. Like the general stats a lot. Everything was defined. Like the tab. With baseline metric, criteria, and definitions added and color scheme added, not sure what else is missing.
